

Forum for Fast Justice, Mumbai, works on judicial accountability and reforms.

Did you know that 3 crore cases are pending, some for more than 30 years?

What are your suggestions for speeding up justice in India?

e.g. - increase the number of judges from 25,000 to 100,000
- compulsory arbitration if either side so desires
- etc.

FFFJ also invites collaborations from volunteers, NGOs, lawyers, media, donors, etc.

Do email your responses to:
